Announcements, News, Updates

Welcome Kory Mertz, ONC

-Works with the challenge grantees and is on the routing list for the LTPAC HIT Collaborative.

1. S&I Framework LTPAC Transitions of Care Workgroup (Sue, Bill)

- New Workgroup – meets on Thursdays at 9 am EST
- <http://wiki.siframework.org/Long-Term+%26+Post-Acute+Care+WG>
- Getting the word out – Getting Committed Members

Notes	Action	Lead(s)
The workgroup is looking at the scope including broadening to longitudinal care and how the workgroup fits with Care Coordination. Peter K raised a point to watch if moving to the more broad longitudinal care removed the focus from LTPAC. Need to also remain focused on holistic wellness that is distinct to LTPAC. Finally – to stay person centered.	Collaborative Associations to disseminate information on the workgroup and build awareness of the LTPAC group.	All
	Have each association HIT Committee have a committed member on the S&I Framework.	All

Need to engage the members of our associations. NASL had this as an agenda item to increase participation by members. Liz sent the information to the nursing association to engage clinical expertise particularly home care background. Rich will follow up with Charlotte from the Home Care Alliance. Majd has an EHR workgroup that he can send the information to the group and CAST commissions. Liz will share her sample language.	Sue will draft sample language for a brief piece that associations can use to disseminate to their members. Liz will share information that she sent.	Sue/Liz

November 17, 2011 - ONC Grantee and Stakeholder Summit - (all invited)

November 18, 2011 - ONC Meaningful Use University Day- (grantees and recipients only)

Renaissance Washington DC Downtown Hotel 999 Ninth Street, N.W. Washington, DC 20001

Objective: This session is designed for grantees interested in exploring and advancing information exchange with nursing homes, home health agencies, and long-term post acute care providers and vendors. The session will focus on:

- Understanding the long term post acute care stakeholders and why their involvement is important to rapidly emerging health information exchange activities
- Identifying emerging opportunities to engage LTPAC communities within states around meaningful use activities
- Identifying federal, state, and private sector strategies to advance health information exchange on behalf of LTPAC patients and providers including:
 - Strategic planning direction
 - Standards and Interoperability (S&I) initiatives
 - Pilots involving long-term post acute care
 - Innovative care coordination involving LTPAC providers and settings

Session Framework (90 minutes):

- Part 1: Introductory Presentation - Addressing Objectives above (30min - Delivered by Michelle and Larry)
- Part 2: Exercise with group 40 min (Community Plan Development - Will be discussed on a 9am call this am)
 - 52 participants will be on rounds of 10 for discussion and plan development (At least 6 facilitators needed – talk through questions and develop plans)
- Part 3: Report Back and Wrap Up

Determine pre-work - Reading materials and reflection questions that could be discussed at the session

Booth/Table will also be open during the 3 days of the meeting (Annessa is coordinating). We will work on a staffing schedule for the booth.
